

THE PRINCIPLES OF LOCAL LEARNING

ACTION

Learning is an active process; involving experimentation leading to new ideas.

THOUGHT

Learning is a thinking process; involving capturing experiences for analysis and reflection.

SHARED LEARNING

Learning is a social activity; learners exchange experiences with each other face to face and with learners in other areas and countries through myNemas.

EXPERIENCE

Learning is built on what the learners already know. All the experience of the learners is vital in the learning.

COMMITMENT

Learning takes time and learners must be committed to a sustained learning process.

EFFORT

Learning needs effort and motivation and comes through experimentation with new ideas.
